

Transparency must
be important

if

Municipal commissioner of Mumbai uses
it more than
30 times in his
2017 financial budget speech

BMC Budget for 2017-18

=

Rs 25,141 crore.

This money comes from the taxes
you
and I pay

But if

you travel by your own car

no one in your family studies in the local
municipal school

you can afford private healthcare

Why should you care about

the bad roads, potholes and lack of walkable footpaths

poor education outcome in the BMC schools despite more than INR 59000 spent per child

unclean hospital rooms; beds not available in the government hospitals

Because

It affects:

- YOU, while driving on that road you take while going to work.
- That kid who aspires to be a pilot but is forced to go to the nearest government school where the teachers never turn up.
- Elders who fear walking on roads because of heavy traffic.
- Your maid who can't afford private healthcare .

ACTION
BRINGS
CHANGE

What can you do?

Promote transparency
and make your
corporator
accountable

To win this fight for transparency:

Step 1: Identify what you really care about? (bad footpaths, roads, school, hospital, sanitation, women's safety etc)

Step 2: Talk to your friends and relatives. Convince them to be a part of the action group.

Step 3: Meet the local corporator with your demands. If you feel that the work will not get done, then take the matter in your hands. (write to us at contact@freeabillion.com for ideas or questions).

Step 3: Create a whatsapp and a facebook group.

Step 4: Mobilise people, file RTIs ([for details-read the other content under toolkits](#))
